Dear Lee County Parent/Guardian:

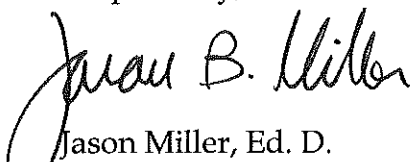

Our schools have had an unusual amount of sickness and flu in recent days. We have also had an increase in the number of students needing to see the school nurse. And sickness and flu has impacted some of our employees.

Be assured that we are taking every possible measure to make our schools safe for students. We have devoted extra time and effort to cleaning and disinfecting each school. We are consulting with district health professionals. Our school nurses are working to make sure that we monitor and report any cases of illness. The most effective thing that we can do is to take basic precautions like those listed in the letter you received last week from the Lee County Health Department. The basic precautions include:

- Get a flu shot if you have not already done so
- If you have a fever do not attend school until you have been fever free without medication for 24 hours
- Wash your hands frequently with soap and water
- Cover your nose and/or mouth when you cough and sneeze
- Do not share food or beverages

Thank you for helping our students by complying with the precautions listed above. By taking these simple steps we can make sure that all of our students will stay healthy and strong.

Respectfully,

Jason Miller, Ed. D.
Superintendent
