

SECLUSION OR RESTRAINT OF STUDENTS**Date: October 18, 2010**

The Board of Education shall require that all schools and programs within the district comply with State Board of Education Rule 160-5-1-.35 concerning “seclusion” and “restraint”, as those terms are defined within the rule.

Physical Restraint:

This policy is not intended to prevent the use of physical restraint in limited circumstances where a student exhibits behaviors that place the student or others in imminent danger and the student is not responsive to verbal directives or less intensive de-escalation techniques. The Board of Education recognizes that in determining when and how to implement this policy and any procedures related to it, educators will have to exercise their professional judgment and discretion. Therefore, the policy is not to be construed as imposing ministerial duties on individual employees. Further, it is not intended to interfere with the duties of law enforcement or emergency medical personnel.

For schools and programs within the district that use physical restraint as defined within the SBOE rule, the Superintendent or designee shall develop and implement written procedures governing its use, which shall include the following provisions:

1. Staff and faculty training on the use of physical restraint;
2. Written parental notification within a reasonable time, not to exceed one school day from the use of restraint, when physical restraint is used to restrain a student;
3. Procedures for observing and monitoring the use of physical restraint;
4. Documentation by staff or faculty participating in or supervising the restraint for each student in each instance in which the student is restrained;
5. Periodic review of the use of restraint and the documentation described in item 4.

Seclusion:

The State Board of Education prohibits the use of seclusion, as that term is defined in its applicable rule, in Georgia public schools and educational programs.
